

"Onto the trail I go,
to lose my mind and
find my soul."

This map has been compiled by people who share a vision. Trails that link Flathead Lake to Glacier Park, school to school access and public lands to neighborhoods. Mile by half mile, a network of trails is being created in this magnificent valley. With the help of many community groups and hundreds of individuals there are now paths for recreating, commuting and relaxing safe from traffic and paved for comfort.

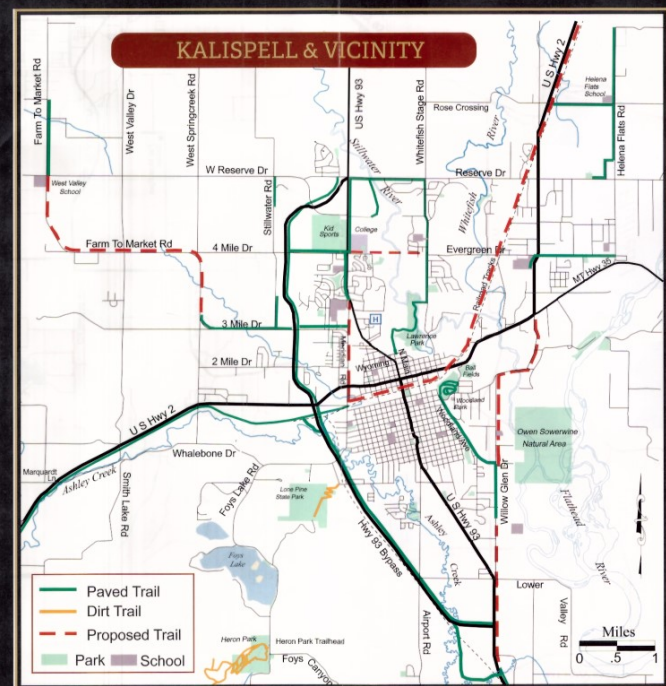

Chamber of Commerce

Special Thanks for this edition of a valley wide trail map goes to the Flathead Valley's hard working Chambers of Tourism and Commerce. These folks are many visitors first impression.

The physical therapists who sponsored the printing of this map believe in our trails. They are also gifted in helping us move toward our dreams without pain and with grace. Exercising on safe trails enhances health and happiness.

Please enjoy our valley, use our trails, stay a little longer, and come back again.
